- 05 Customers
- 06 Create & send invoices
- 07 Fulfillment, labels & refunds
- 08 Payouts & reports
- 09 Quick reference

HOW TO USE THIS GUIDE

Follow the numbered steps. Gold boxes are tips. Brown boxes are important rules. Menu paths look like **Packages** or **Invoices** → **New invoice**.

1. Sign in & menu

Open the Partner Portal link from Purely Eve and sign in with the email and password you registered.

[Dashboard](#) [Inventory](#) [Customers](#) [Invoices](#) [Fulfillments](#) [Packages](#) [Payments](#) [Reports](#) [Profile](#)

TIP

Use Sign out when finished, especially on a shared computer.

2. First-time setup (profile + Stripe)

Confirm your ship-from address

- 1 Open **Profile**.
- 2 Check your mailing and fulfillment (ship-from) address. Tax and shipping rates use this.
- 3 Save any updates.

Connect Stripe (required to get paid)

- 1 Open **Payments**.
- 2 Start Stripe Connect onboarding and complete the Stripe-hosted steps (bank details, identity).
- 3 When charges and payouts are enabled, customer payments can land in your account.

FEES

Customers pay you. Stripe's card fee (typically 2.9% + \$0.30) comes out of your proceeds. Shipping the customer pays on the invoice goes to Purely Eve to fund the postage label.

BEFORE YOU CAN BUY PACKAGES

Purely Eve must approve your registration and accept your resale certificate. You will get email when package purchasing is unlocked.

3. Buy inventory packages

- 1 Go to **Packages**.
- 2 Choose a package (for example Starter or Growth) and continue to checkout.
- 3 Confirm ship-to details and choose a shipping rate.
- 4 Pay through Stripe. Inventory is credited when payment completes.
- 5 Purely Eve ships the package to you and may email tracking when it goes out.

TIP

Package purchases are prepaid and not taxed (resale). You charge tax on retail customer sales.

4. Inventory on hand

Open **Inventory** to see units on hand. Stock increases when a package order is paid and decreases when a customer invoice is paid / fulfilled per portal rules. Low stock is highlighted so you know when to reorder packages.

5. Customers

- 1 Go to **Customers** → add a customer.
- 2 Enter name, email, phone, and billing / shipping addresses.
- 3 For wholesale (business) customers, capture resale certificate number and upload when required.

6. Create & send invoices

- 1 Go to **Invoices** → **New invoice**.
- 2 Select the customer and customer type: **Direct to Customer** (retail / intro pricing with tax) or **Retail Wholesale** (business pricing, typically untaxed with resale docs).
- 3 Add line items from your assigned products. Prices fill in automatically — you cannot edit price.
- 4 Choose shipping (live rates) or free shipping if offered.
- 5 Review totals (product, shipping, tax) and send. The customer gets a branded payment link email.

Unpaid invoice

You can resend the payment link or cancel before they pay.

After they pay

Status becomes paid. Open Fulfillments to buy a label and ship.

7. Fulfillment, labels & refunds

- 1 Open **Fulfillments** (or the link from a paid invoice).
- 2 Buy the shipping label. Postage is covered by shipping already collected on the invoice.
- 3 Print the label, ship the order, and the customer receives tracking by email.
- 4 You can reprint the label later from the same order page.

Refund a paid customer order

- 1 Open the paid invoice or its fulfillment page.
- 2 Use **Refund & restore stock**.
- 3 The customer is refunded through Stripe and inventory is put back on hand.

NOTE

If a label was already purchased, shipping that went to Purely Eve for postage may not be returned (postage was spent). Refund the customer product/tax share as shown in the portal.

8. Payouts & reports

Payments

Under **Payments** you can see Stripe Connect status, available / pending balance, and recent payouts. Open the payout report for fee detail on paid invoices.

Reports

- 1 Open **Reports** for month, year-to-date, and lifetime sales.
- 2 Filter by date range and use **Export report** for a CSV download.
- 3 Click **Tax collected** to open tax by ship-to state (also exportable).

9. Quick reference

TASK	WHERE
Update ship-from address	Profile
Connect bank / Stripe	Payments
Buy Starter / Growth package	Packages
Check stock	Inventory
Add customer	Customers
Invoice & payment link	Invoices
Buy label & ship	Fulfillments
Refund paid order	Invoice or Fulfillments
Sales / tax / CSV	Reports

PRICING (SET BY PURELY EVE)

Retail, wholesale, and introductory prices are locked on your side. Choose the correct customer type on the invoice and the price fills in automatically.
